

Verónica Becher

April 2018

Address

Professor Verónica Becher
Departamento de Computación
Facultad de Ciencias Exactas y Naturales
Universidad de Buenos Aires
Pabellón I, Ciudad Universitaria
C1428EGA Buenos Aires, Argentina
Email: vbecher@dc.uba.ar
URL: <http://www.dc.uba.ar/people/profesores/becher>

Current Position

Full Professor, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires (Profesora Titular - UBA)
Principal Researcher Consejo Nacional Investigaciones Científicas y Técnicas (Investigadora Principal-CONICET)
Member Laboratoire International Associé INFINIS, Université Paris Diderot-CNRS / UBA-CONICET.

Area of Specialization

Theoretical Computer Science; randomness, normal numbers, combinatorial problems on words.
Erdős number: 3

Education

Licenciatura en Ciencias de la Computación, Universidad de Buenos Aires, 1990.
MSc.in Computer Science, University of British Columbia, Vancouver, Canada, 1993. Supervisor: Craig Boutilier.
PhD. in Computer Science, Universidad de Buenos Aires, 1999. Supervisor: Carlos Alchourrón.
Postdoctoral Fellowship CONICET, 2000. Supervisor: Gregory Chaitin.

Visiting Researcher

- Chercheuse/Professeure invitée, Institut de Recherche en Informatique Fondamentale (IRIF), Université Paris Diderot & CNRS, regular visits since 2002
- Visiting Researcher Erwin Schrödinger International Institute for Mathematics and Physics (ESI), University of Vienna, November 11- December 17, 2016.
- Visiting Researcher Institute for Mathematical Sciences, National University of Singapore, June 2014.
- Visiting Researcher, Institut de Recherche Mathématique Avancée, Université de Strasbourg, July 2013; June 2017.
- Visiting Fellow Isaac Newton Institute for Mathematical Sciences, Cambridge UK, June 2012.
- Chercheuse étranger de la Mairie de Paris en qualité de senior CNRS et Université Paris 7, Laboratoire d'Informatique Algorithmique: Fondements et Applications et Équipe de Logique Mathématique, November 2008 to February 2009.
- Visiting researcher Department of Mathematics and Computer Science, University of Victoria, Wellington, New Zealand, invited by Rod Downey, November 2004.
- Invited Professor Department of Logic and Philosophy of Language, Universidad de Sevilla, España, to give the course "Information and randomness", January 2002.
- Visiting Researcher IBM Thomas Watson Research Center, New York, USA, to work with Gregory Chaitin, December 1999 and December 2000.

Research Supervision

Director of group Kapow (Knowledgeable Algorithms for Problems on Words)

Director of Assistant Researchers CONICET

1. Pablo Turjanski (CONICET 2013-2017)
2. Luciana Ferrer (CONICET 2013- 2016)
3. Agustín Gravano (CONICET 2010-2015)
4. Santiago Figueira (CONICET 2007-2010).

Director of Postdoctoral Researchers

1. Sergio Yuhjtman (ANPCyT 2016-2017)
2. Pablo Turjanski (CONICET 2012-2013)

Director of PhD in Computer Science

1. Nicolás Alvarez, “Finite-state randomness”, Universidad Nacional del Sur, 2015-2017. With CONICET doctoral fellowship. Director: V. Becher.
2. Pablo Ariel Heiber, “Normal numbers from a computational perspective”, Universidad de Buenos Aires, 2014. With CONICET doctoral fellowship Director: V. Becher.
3. Daniel Gorín, “Automated reasoning techniques for hybrid logics”, 2009. In cotutelle Argentina-France. With CONICET doctoral fellowship. Directors: V. Becher (Argentina), Carlos Areces (France).
4. Sergio Mera, “Modal Memory Logics”, 2009. In cotutelle Argentina-France. With CONICET doctoral fellowship. Directors: V. Becher (Argentina), Carlos Areces (France).
5. Santiago Figueira, “Aspects of randomness”, Universidad de Buenos Aires, 2006. With CONICET doctoral fellowship. Director: V. Becher.

Director Research Student Fellowships

1. Facundo López Bristot, CIN 2012. Award JAIIO 2013
2. Alejandro Deymonnaz, IBM-BioSidus, 2009-2010.
3. Pablo Ariel Heiber, IBM-BioSidus, 2009-2010.
4. Pablo Barenbaum, IBM-BioSidus, 2009-2010.
5. Melisa Halsband, IBM-BioSidus, 2009-2010.
6. José Orlicki, CIN 2006.

Director of 20 “Tesis de Licenciatura” Universidad de Buenos Aires (equivalent to MSc. thesis)

7. Elisa Orduna, ongoing 2018.
8. Gabriel Thibeault, ongoing 2018.
9. Ariel Zylber, 2017.
10. Martin Epszteyn, 2014.
11. Alejandro Alfonso, 2012.
12. Alejandro Deymonnaz, 2012.
13. Leandro Miquet, 2011.
14. Melisa Halsband, 2010.
15. Lucia Cavatorta, 2009
16. Marcos Foglino, 2009.
17. Jose Orlicki, 2006.
18. Rafael Picchi, 2005. Award Fundación Sadosky.
19. Mariano Moscato, 2005
20. Martín Urtasún, Alejo Caparelli, 2004. Award Microsoft IDS 2003.
21. Alejandro Dau, 2004.
22. Silvana Bonaccio, Rosana Centrone, 2002
23. Silvana Picchi, 2002.
24. Fernando Calderon, Diego Calderón, Norma Marinaro, 2001.
25. Christian Durr, 2001.
26. Santiago Figueira, 2000.
27. Sergio Daicz, 2000. Award , 3rd position, VIII Concurso de Tesis de Maestria CLEI-UNESCO 2001.
28. María de los Angeles Grieco, 1999.

Main International Scientific Responsibilities

- Editor of the Journal of Symbolic Logic (Association for Symbolic Logic), since 2018.
- Council Member of the Association for Symbolic Logic, 2008-2010; 2014-2017. Executive Committee member.
- Council Member of the Division of Logic, Methodology and Philosophy of Science and Technology (DLMPS) of the International Union of History and Philosophy of Science 2016-2019.
- Chair of Committee on Translations, Association for Symbolic Logic, 2008-2010, 2011-2013, 2014-2015.
- Associate Editor of Journal of Logic, Language and Information (Kluwer/Springer), 2005-2009.
- Committee ECOS Argentina-France, responsible for the exact sciences, 2010-2012.
- Responsible for the Argentine side of the agreement on scientific cooperation between Université Paris Diderot and Universidad de Buenos Aires, approved November 2003.
- Steering Committee Computability Complexity and Randomness (CCR) since 2004.
- Program Committee WoLLIC 2012; LSFA 2012, 2015, 2017 CCR 2008, 2009, 2014; CiE 2015; SLALM 2017.
- Reviewer for Acta Mathematica Scientia, Acta Arithmetica, American Mathematical Monthly, Annals of Combinatorics, Austrian Science Fund; Chaos, Solitons & Fractals, Entropy, Information Processing Letters, IEEE Access, Journal of Complexity, Journal of Symbolic Logic, LICS (Logic in Computer Science), Mathematics of Computation (American Mathematical Society), Mathematical Review (American Mathematical Society), Monatshefte für Mathematik, Notre Dame Journal of Formal Logic, Transactions of Computational Logic, NSF (National Science Foundation USA), NSA (National Security Agency; USA), STACS (Symposium on Theoretical Aspects of Computer Science), Theoretical Computer Sciences, Theory of Computing Systems, Transactions on Computational Logic, WoLLIC, among others.

Main Argentine Scientific Responsibilities

- Consejera Académica Titular, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires, 2018-2020.
- Associate Head of Departamento Computación Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires, October 2014-2016.

- Consejera Académica Suplente CELFI-Datos (Centro Latinoamericano Formación Interdisciplinaria) since 2015.
- Vocal Titular del Consejo de Administración, Fundación Sadosky, since August 2016.
- Comisión Técnica Asesora Ciencias Básicas y Biológicas (CTA4), Universidad de Buenos Aires (UBA) 2005-2006, 2010-2012. Ciencias Físicas, Químicas y Matemáticas, UBA (CTA1), 2003, 2004.
- Miembro Comisión Ad-Hoc FCEyN, 2011-2013 (titular), 2010 (suplente).
- Scientific Assessment Ministry of Science, Technology and Innovation, July 2008-July 2009.
- Miembro CONICET Comisión de Informática, 2007- 2008.
- Miembro Comisión Becas de Informática CONICET, 2015-2016.
- UBA, FCEyN, Fellowships Committee 2003.
- FONCyT Evaluation Committees (2001, 2002, 2003), FONTAR (2002).

Organization of International Scientific Meetings

1. Forthcoming: Equidistribution: Arithmetic, Computational and Probabilistic Aspects. Institute for Mathematical Sciences, National University Singapore, 29 April-May 17, 2019. Organizers: T. Slaman (University California Berkeley) Y. Bugeaud (Université Strasbourg) V. Becher (Universidad de Buenos Aires) and R. Tichy (Technische Universität Graz)
2. Forthcoming International Conference on Computability, Complexity and Randomness 2018, December 2018, Santiago de Chile. Organizers: V. Becher (Universidad de Buenos Aires) and Cristóbal Rojas (Universidad Andres Bello, Chile)
3. Computability Session, Logic Colloquium 2017, August 14-20 2017, Stockholm University. Organizers: V. Becher (Universidad de Buenos Aires), D. Hirschfeldt (University of Chicago).
4. Logic and Computer Science Session, Simposio Latinoamericano de Lógica Matemática, Puebla, México. June 26-30, 2017 Organizers: V. Becher (Universidad de Buenos Aires), M. Osorio (Benemérita Universidad Autónoma de Puebla).
5. Algorithmic Randomness Programme, Institute of Mathematical Sciences, Singapore. June 2-30, 2014.
6. Buenos Aires Semester in Computability, Complexity and Randomness, January to June 2013. Organizers: V. Becher and S. Figuiera (Universidad de Buenos Aires), N. Greenberg (Victoria University, Wellington, New Zealand), J. Miller (University of Wisconsin, Madison), A. Montalbán and T. Slaman (University of California Berkeley).
7. Logic and Computability Session, Congreso Latinoamericano de Matemática (CLAM), FAMAF, Universidad Nacional de Córdoba, August 6-10 2012. Organizers: V. Becher (Universidad de Buenos Aires), C. Di Prisco (Instituto Venezolano de Investigaciones Científicas, Venezuela) and A. Montalbán (University of California, Berkeley).
8. Dagstuhl Schloss, Seminar 12021 Computability, Complexity and Randomness, January 8-13, 2012. Organizers: V. Becher (Universidad de Buenos Aires), L. Bienvenu (Université Paris Diderot), R. Downey (University of Victoria, Wellington, New Zealand), E. Mayordomo (Universidad de Zaragoza, España),
9. International Conference on Logic, Computability and Randomness, Universidad de Buenos Aires, January 10-13 2007. Organizers: V. Becher (Universidad de Buenos Aires), R. Downey (University of Victoria, Wellington, New Zealand), and D. Hirschfeldt (University of Chicago).
10. International Conference on Logic, Computability and Randomness, FAMAF Universidad Nacional de Córdoba, Argentina, September 20 to 24, 2004. Organizers: V. Becher (Universidad de Buenos Aires), R. Downey (University of Victoria, Wellington, New Zealand), D. Hirschfeldt (University of Chicago).

Selected Talks

- 2018 Invited speaker. Forthcoming Conference on Mathematical Logic, Satellite event for the International Congress of Mathematicians 2018. Niterói, Brazil, 10–11 August 2018.
- Randomness and uniform distribution modulo one, joint work with Serge Grigorieff and Theodore Slaman. "Automata" seminar IRIF, Université Paris Diderot, January 19, 2018.
- Randomness and uniform distribution modulo one, joint work with Serge Grigorieff and Theodore Slaman. Oberwolfach Workshop 1802 "Computability Theory", January 7-13, 2018.

- 2017 Una construcción de un número absolutamente normal y con fracción continua normal. Trabajo conjunto con Sergio Yuhjtman. Reunión Anual de la Unión Matemática Argentina, Departamento de Matemática - Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires, 11 al 15 de Diciembre 2017.
- Randomness! Talk at Workshop of the Division for Logic, Methodology, and Philosophy of Science and Technology "Global Perspectives on Reasoning and Scientific Method", Salzburg, Austria. 30 November and 1 December 2017. slides
- Alan Turing, el padre de la computación. Jornadas sobre ecos de la obra y figura de Alan Turing en la Argentina, 10 de Noviembre 2017. Universidad Nacional de General Sarmiento.
- A construction of an absolutely normal and continued fraction normal number, (joint work with Sergio Yuhjtman). Randomness days, October 17-18, 2017. Departamento de Computación, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires.
- Azar y Autómatas, Jornada de Investigación para Estudiantes de Computación, Departamento de Computación, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires, 9 de octubre 2017.
- Reunión Anual de la Unión Matemática Argentina, Departamento de Matemática, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires Buenos Aires, 11 al 15 de Diciembre 2017.
- Randomness. Global Perspectives on Reasoning and Scientific Method. Workshop of the Division for Logic, Methodology, and Philosophy of Science and Technology. Salzburg, Austria. 30 November and 1 December 2017.
- On absolutely normal and continued fraction normal numbers. Randomness and Analysis of Algorithms, Departamento de Computación, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires, October 17 – 18, 2017.
- Highlight speaker** for the joint LC-CSL session. Logic Colloquium 2017, August 14-20, 2017, Stockholm, Sweden.
- Invited speaker.** Computability and Complexity in Analysis (CCA 2017) July 24-27, 2017, Daejeon, Republic of Korea (South Korea).
- "Normality together with other properties", Number theory seminar Nancy-Metz, Institut Élie Cartan de Lorraine, Université de Lorraine. June 1, 2017.
- 2016 "Construction of normal numbers, computational aspects". Workshop Normal Numbers: Arithmetic, Computational and Probabilistic Aspects, Erwin Schrödinger International Institute for Mathematics and Physics (ESI), November 14, 2016.
- "Finite-state independence and normal sequences" LIA INFINIS Workshop, November 4, 2016, Paris.
- Invited speaker** Computability, Randomness and Applications, Centre International de Rencontres Mathématiques (CIRM) Marseilles, France, June 20–24, 2016.
- Invited lecture** 28th European Summer School in Logic, Language and Information (ESSLLI 2016), Free University of Bozen-Bolzano, Italy, 15–26 August, 2016.
- 2015 **Conferencia invitada** "Nuevos números normales". Charlas en honor a Joos Heintz por sus 70 años. Técnicas (semi)numéricas en la resolución de sistemas polinomiales. Buenos Aires, October 26 2015.
- Invited speaker** 15th Congress of Logic, Methodology and Philosophy of Science, Session on Mathematical Logic. Helsinki, Finland, August 3–8, 2015.
- Plenary speaker** North American Annual Meeting of the Association for Symbolic Logic, University of Illinois, March 25–28, 2015.
- "New normal numbers", Séminaire General de Logique, Equipe de Logique Mathématique, Université Paris Diderot, February 2, 2015.
- 2014 **Plenary speaker** Workshop of Logic Language and Information (WoLLIC), Valparaiso Chile, September 1–4, 2014.
- Plenary speaker** XVI Simposio Latinoamericano de Lógica Matemática, Buenos Aires, July 27-August 2, 2014.
- 2013 **Plenary speaker** Developments in Computational Models 2013, satellite of CONCUR 2013, "On Turing's note on normal numbers", Buenos Aires, August 26, 2013.
- "On normal numbers", Séminaire Automates, LIAFA, Université Paris Diderot, July 12, 2013
- Lectures on normal numbers, Buenos Aires Semester in Computability Complexity and Randomness, March 2013.
- 2012 **Plenary speaker** Turing Centenary Conference CiE 2012, How the World Computes, "Turing's normal numbers: Towards Randomness", Cambridge, UK, June 18-23, 2012.
- Plenary speaker** in Logic Workshop at Buenos Aires A Tribute to Horacio Arló Costa, "On the Definition of Randomness", Sociedad de Análisis Filosófico, Buenos Aires, August 24, 2012.

- "Sobre el Problema de Dar Ejemplos de de Números Normales", Instituto de Matemática Aplicada del Litoral (IMAL) del CONICET, Santa Fe, April 2012.
- 2011 **Plenary speaker** International Conference on Computability, Complexity and Randomness 2011, "A better complexity of finite sequences". Cape Town, South Africa, January 2011.
- 2010 **Plenary speaker** 1er Congreso Argentino de Bioinformática y Biología Computacional, Mayo 14,2010, Universidad Nacional de Quilmes, Buenos Aires.
- 2009 "Perfect repeats in the human genome, an exhaustive but efficient computation", IBM Life Science, Watson Research, New York, July 22, 2009.
- "Perfect repeats in the human genome, an exhaustive but efficient computation", IFIBYNE, CONICET, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires, May 7, 2009.
- "What do different chromosomes have in common? An exhaustive but efficient computation", Center for Genomic Regulation, Barcelona, España, January 27, 2009.
- 2008 Invited talk. Cycles in de Bruijn graphs", Journée de 60 ans de Serge Grigorieff, Université Paris Diderot, 15 Janvier 2008.
- 2007 **Plenary speaker** Reunión Anual de Unión Matemática Argentina, "Números reales aleatorios", FAMAF, Universidad de Córdoba, 21 de septiembre de 2007.
- 2006 **Plenary speaker** XIII Simposio Latinoamericano de Lógica Matemática, "Turing's unpublished algorithm for normal numbers", Oaxaca México, 10 Agosto 2006.
- Invited Speaker** "Turing's unpublished algorithm for normal numbers", Turing days, Bilgi Universitesi, Istanbul, 27 May 2006.
- 2005 "Cornucopia of randomness", Third International Workshop on Seminumerical Techniques in Polynomial Equation Solving, meeting in honor of Joos Heintz's 60th birthday, Buenos Aires, October 24-28, 2005.
- "Old and new results in Program size complexity", LIAFA, Université Paris Diderot, France, March 2005.
- 2004 "High Randomness in the spirit of Rice's theorem for computability", Department of Mathematics, University of Victoria at Wellington, New Zealand, November 2004.
- 2003 "Is Complexity reusable?" Primeras Jornadas Latinoamericanas de Ingeniería y Desarrollo de Software. Microsoft Argentina, Pabellón Blanco de La Rural, October 30, 2003. Panelists: Verónica Becher, Yuri Gurevich , Joos Heintz.
- 2002 "Randomness: solved and unsolved questions", Ecole Normal Supérieure, Paris, January 2002.
- "On the Standard proof of randomness", King's College, London, UK, January 2002.
- "On the Standard proof of randomness", ILLC, University of Amsterdam, The Netherlands, January 2002.
- 2001 "Randomness and real numbers", CREA Ecole Polytechnique, Paris, July 2001.
- "Examples of higher order randomness", XIV Coloquio Latinoamericano de Algebra, La Falda, Córdoba, Argentina, July 2001.
- "El azar y los números reales", FAMAF, Universidad de Córdoba, Argentina, July 2001.

Current Research Grants

1. ECOS PA17C04 "Randomness and finite-state machines" Directors: Verónica Becher (Universidad de Buenos Aires) , Olivier Carton (Université Paris Diderot), 2018-2020.
2. PICT-2014-3260 "Algoritmos, Azar y Complejidad Intrínseca " Investigadora Responsable: Verónica Becher, 2016-2018.

Previous Research Grants

3. CONICET PIP Code 11220110101093 "Random sequences: theory and algorithms", Directora, Verónica Becher 2013-2016.
4. UBACyT 20020130100433BA Leyes fáciles pero difíciles de aprender. Dirección: Joos Heintz, co-dirección: Verónica Becher, 2014-2017.
5. PICT-2010-0525, "Representación sucinta de la información en ingeniería de software y procesamiento de datos", Director: Joos Heintz, co-dirección: V. Becher, 2011-2014.
6. UBACyT 20020100100945, "Programabilidad en la era de la inundación de datos".Director: Joos Heintz, co-director: V. Becher, 2011-2014.
7. PICT-2007-2067, "Programmability versus computability", Dirección V. Becher, 2008-2011.

8. UBACyT X098. Dirección : Joos Heintz. Codirección: V.Becher, 2008-2011.
9. Binational project Argentina-France MINCyT-INRIA/CNRS FRIC/08-tics/01, "Randomness and combinatorics on words" V.Becher (UBA), J.E. Pin (Université Paris Diderot) , 2009-2011.
10. Binational project Argentina-Spain MINCyT-MICINN AR2009-009, "Homogenization Dynamics of Mammalian Genomes. An efficient and exhaustive quantitative pairwise comparison among complete chromosomes", V. Becher (UBA), H. Dopazo (Centro de Investigaciones Príncipe Felipe), 2010-2011.
11. "Algorithms for finding DNA repeats", financed by Biosidus and IBM Argentina, 2009-2011.
12. Binational project Argentina-France SECyT-INRIA/CNRS FRIC06, "Infinite sequences and algorithmic randomness ", V.Becher (UBA), J.E. Pin (CNRS-Université Paris Diderot), 2006-2008.
13. BCV-2009-2-0016 and BCV-2009-1-0015 Red Española de Supercomputación, "Homogenization Dynamics of Mammalian Genomes. An efficient and exhaustive quantitative pairwise comparison among complete chromosomes", H.Dopazo (Spain), V.Becher (Argentina), 2008, 2009.
14. UBACyT X230 "Randomness, Incompleteness and Complexity", 2004-2007.
15. PICT Redes 0172 "Derivations of Gödel's theorem: Incompleteness, complexity and randomness", V. Becher (UBA), D.Vaggione (Universidad Nacional de Córdoba), 2004 – 2007.
16. UBACyT X404, "Randomness and infinite computations", 2003-2004.
17. "Algorithms, Complexity and Structure", International Science and Technology (ISAT), Linkages Fund New Zealand, R. Downey (University of Victoria, NZ), V. Becher(UBA), 2003 – 2004.
18. PICT-1999-5382 "Topics in algorithmic information theory", V.Becher, 2000 – 2003.

Teaching

Departamento de Computación, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires
Algoritmos y Estructuras de Datos I; Teoría de Lenguajes; Información y Azar; Azar y Atómatas

Departamento de Lógica y Filosofía del Lenguaje, Universidad de Sevilla, España. Información y Azar, January 2002.

Reunión Anual de la Unión Matemática Argentina, Tandil, Argentina. Información y Azar, october 2010.

Media Notes related to my research

1. The Omega Man, New Scientist, March 10, 2001.
2. Omega, entrevista con Gregory Chaitin, por Nora Bär, diario La Nación, Buenos Aires, 29 Abril, 2001.
3. Perfume de Azar, por Martín De Ambrosio, diario Página 12, Buenos Aires, 13 Julio, 2002.
4. Números casuales, por Verónica Engler, Exactamente, Facultad de Ciencias Exactas y Naturales, 3 Marzo, 2004.
5. De puzzles, soluciones y cuelgues de computadoras, por Cecilia Draghi, Cable Número 593, año 16, 24, Oficina de Prensa SEGBE, Octubre 2005.
6. Reconstruyen un manuscrito histórico. Es un problema matemático planteado por Alan Turing, considerado el padre de la computación, por Nora Bär, diario La Nación, 10 Julio, 2007.
7. Turing puso en juego su homosexualidad en el trabajo científico, por Leandro Lacoa, Agencia CTyS, 26 Diciembre, 2012.
8. Être normal? Pas si facile ! Jean-Paul Delahaye, Pour la Science 422: 126- 131. Décembre 2012.
9. Sobre lo azaroso que es el azar, diálogo con Verónica Becher y Theodore Slaman, por Leonardo Moledo, diario Página 12, 10 Abril, 2013.
10. Reunidos por el Azar, por Gabriel Rocca, Servicio de Información Científica de la Facultad de Ciencias Exactas y Naturales, UBA, 12 de Abril 2013.
11. Un encuentro inédito con el Azar, Conectados Año 3, Número 6, Newsletter del Departamento de Computación, Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires, Abril 2013.
12. Entrevista de Adrián Paenza con Theodore Slaman y Verónica Becher en Científicos Industria Argentina. Bloque 1, Bloque 2 TV Canal 7, 18 Mayo, 2013.
13. Alan Turing. El hombre que sabía demasiado, por Nora Bär, diario La Nación, 10 Enero 2014.

Distinctions

1. Simons Visiting Professorship grant to visit Laboratoire IRIF, Université Paris Diderot - Mathematisches Forschungsinstitut Oberwolfach, January 2018.
2. Chercheur étranger de la Mairie de Paris en qualité de senior CNRS et Université Paris 7, 2008.
3. CESSI Award 2007 for the reconstruction of Alan Turing's "A note on normal numbers".
4. Sadosky Award 2005, recognized researcher abroad, CESSI.
5. Microsoft Award IDS 2004. Classification of Information based on Kolmogorov-Chaitin complexity. Team: V. Becher, S. Figueira, A. Capparelli, and M. Urtasun.
